FRIDAY MORNING, MAY 13, 1864.

DIVINE SERVICE.—Rev. Father James I. Callan will hold Catholic service at the school house on Sunday morning next, at 10 o'clock.

We are pleased to find that our humble efforts to awaken our citizens to a sense of their interests have produced some effect. Since our remarks in last week's issue a great deal of interest has been manifested in regard to the subject of grading our main thoroughfares, and a general disposition to do something is manifested on the part of property owners. This spirit, if carried out by acts, will prove that enterprise is not dead, but has merely been taking a quiet nap—a kind of morning slumber, profound and deep, but yet a slumber. We have ascertained that for the sum of two thousand dollars, the proprietors of the Pacific Turnpike will make a good wagon road from the south end of Sacramento street to the end of Main street, and thence to connect with the Donner Lake wagon road, on a grade of not more than twelve inches to the rod, which for stages and light teams would not be a heavy grade. Main street would require filling at the junction with Sacramento street about nine feet, and which, by cribbing and filling with gravel from the hill in the rear of Arnstein's would be an easy matter. Between Arnstein's and the Dutch Flat hotel it would be necessary to make a cut of about three feet in the deepest part in order to get a uniform grade. Here seems to be the great stumbling block to one of our property owners, who is under the impression that the people would require ladders to climb into his place of business, and as his principal customers are ladies, the vision of these ladders with crinolines climbing them obstructs his vision so that he cannot see through the openings which point to his best interests. Of course if our streets were graded, the side-walks would require a certain amount of grading also, and a short step in the front of a business house will not materially hinder persons from trading with a man provided he be liberal and accommodating to his customers, otherwise, the step might injure him. From the Dutch Flat hotel to the head of Main street the cutting would be light and easy to the main road near the reservoir. This road would be a firm, beautiful road, free from dust in summer, and mud in the winter, and as a matter of course would be preferred to the grade beyond the town, which will either be dusty or muddy. As regards the expense of making it, we should not think of it for a moment, it is only spending a dollar to get back ten, not only in the increase of the value of our property, but in our business. We can afford to spend three thousand dollars for the erection of a church; we can lay out a cool thousand on a ball; we can invest six or eight hundred dollars in circus ticket when the spangle-jackets comes to town, why, then, should we hesitate in expending two thousand dollars to make our town double its size and treble its population in less than a year? We can see no reason or motive worthy the consideration of a sensible man why this enterprise should not receive the sanction and hearty assistance of all our citizens. The only point to be discussed is, whether we shall allow the proprietors of the new road to take charge of the work or whether we do so ourselves and own it when completed. In either event there must be concert of action amongst our business men and property owners. We have no doubt but the money will be raised, and for this purpose and the discussion of the entire matter connected with it, there will be a meeting held at the Golden Eagle Hall on Tuesday evening next. Let every one make it a point to attend this meeting, and freely discuss the practicability of the proposed project.

MILITARY POLL TAX.—We remember that a year ago the impression gained credence that the militia—organized—of our State were not subject to poll tax, and we believe that the Collectors very generally refrained from insisting upon the payment of this tax by persons belonging to organized companies, supposing them to be exempt; this year, however, the matter is slightly different, and those who have heretofore considered themselves exempt from the payment of the military poll tax will have to walk up to the Collector's office and settle. We notice a correspondence between a Mr. W. W. Allen, of Suisun City, and the Attorney of the State, enquiring of the latter official the legality of the payment of the military poll tax by members of the military companies, and asks whether the "16th section of an Act amendatory to the Militia Law, passed in 1863 did not annul the 44th section of the Act passed in 1862, in relation to the exemption of members of the militia from military poll tax." We find the correspondence in the Solano Press, under date of April 25th, and give the Attorney General's answer in full, as follows:

SACRAMENTO, April 26th, 1864.

W. W. ALLEN, Esq., Dear Sir:—I have examined the 44th section of the Act of '62 and the 16th section of the Act of '63, and also the 2nd section, and think the law is against you. Clearly it ought to have exempted you; but almost as clearly it has not. The laws as construed together, by rules of construction adopted in courts, would read thus: "All members of the organized militia, etc., shall be exempt from the payment of poll tax of every description [section 44], etc., except that they shall not be exempt from the military poll tax [section 16 of Act of '63]. And this is still clearer, as the section 16 exempts specially California Indians, and California Volunteers serving in the U. S. Army, and omits to exempt the militia. The injustice is quite apparent, but the Legislature must remedy it. I am yours very truly,

J. G. McCULLOUGH.

SANITARY COMMISSION.—The following is a receipt for the sum of \$876 50 received by the New York Agency of the Sanitary Commission, which amount was donated by the people of our town for the noble purpose of relieving the sick and wounded soldiers who risked their all for the perpetuation of free government and exalted liberty:

U. S. SANITARY COMMISSION,
New York Agency, 823 Broadway,
New York, July 1st, 1863.

To Messrs. H. Fellows, and others, Dutch Flat: GENTLEMEN:—Your noble and patriotic letter of May 16th covering a remittance of \$876 50 is just at hand. We feel strengthened and encouraged to find that the cause so dear to our hearts is equally so to our most distant brethren, and feel proud to be the almoners of a gift given in such a hearty spirit of patriotism and humanity. Many a poor fellow stricken down by the traitorous hand of a rebel shall rise up to bless California for her bounteous gifts. With heartfelt appreciation of the feelings that prompted you,

I am, very respectfully,
Your obedient servant,
HENRY W. BELLOWES,
By B. Collin.

CREDIT.—An article published in our last issue headed "Pacific Railroad," should have been credited to the American Flag, from which the article was taken. We did not mean to appropriate the piece, and take every opportunity to make the amende honorable.

GRAND OFFICERS.—The following named gentlemen were elected officers of the Right Worthy Grand Lodge of the I. O. O. F., of California, at the recent session held in Sacramento: J. A. McClelland, of San Francisco, Grand Master; C. O. Burton, of Stockton, Deputy Grand Master; J. N. Randolph, of Sutter Creek, Grand Warden; T. Rodgers Johnson, of San Francisco, Grand Secretary; Henry Kimball, of San Francisco, Grand Treasurer; E. W. Roberts, of Grass Valley, Grand Representative. The next annual session of this body will take place in San Francisco in May, 1865.

DISTRESSING ACCIDENT.—We are grieved to be called upon to record a severe and probable fatal accident which has just occurred on the ground where the flag presentation took place. Wm. Parsons, and two young men, brothers, named William and Simeon Jordan were attending to firing the cannon after the presentation ceremonies, and while the brothers were ramming a cartridge, the gun was prematurely discharged, injuring the face, eyes, and one of the arms of Wm. Jordan, and tearing the wrist and left hand of Simeon in a terrible manner, besides injuring his eyes, probably fatally. We are just from the scene, and as yet nothing can be stated definitely as the result of this sorrowful occurrence. Drs. Nelson and Jones were immediately in attendance, and are now busy in rendering the young wounded every medical assistance.

The idea seems to be pretty generally entertained by the Radicals that the States now in rebellion must be reduced to the condition of Territories in order to bring them back into the Union. By the following extract it will be seen that Andrew Johnson, a man whom most of our Union friends seem willing to elevate to the second most exalted position within the gift of the people, ventilates this doctrine pretty thoroughly. His ideas about reduction is about as much in accordance with the views held by the Radicals on this subject as the act concerning the Special Contract law passed by the last Legislature was in opposition to the doctrine of State Sovereignty. Mr. Johnson says:

"To admit that a State can be out of the Union is virtually admitting the principle of secession. Nor can a State be put back to a territorial condition. It is contrary to the genius of our government. The State cannot destroy herself, nor can the United States destroy a State. When you destroy a State you destroy the Union of the States. Hold fast to your liberties under the Constitution."

CHERRIES.—We acknowledge the receipt of a dish of fresh cherries from Mr. L. Arnstein of this place. They were the first we have seen this season, and of an excellent flavor. They were grown upon Mr. Arnstein's garden, near San Francisco.

Rev. Henry W. Bellows, of the Sanitary Commission notoriety, arrived in San Francisco by the steamer Constitution, and preached in the morning and evening of the 1st instant, in the Geary street church.

OUR thanks are due, and we herewith tender them to Mr. Hopkinson, the expressman between this place and Nevada, for the prompt delivery of letters, packages, and the Nevada dailies. He is very prompt and worthy the patronage of all who have business to transact at any of the places on his route.

STATIONS.—The President of the California Stage Company was up on the Dutch Flat and Donner Lake Wagon road last week for the purpose of locating places for stations for the Company. We learn that there are to be four stations between this place and Donner Lake, a distance of thirty-six miles. This Company will make the very best time possible between the depot of the Central Pacific Railroad and Virginia city. They expect to set passengers down at Virginia city, in 18 hours from the time of departure from the depot, and in 20 hours from the time of leaving Sacramento.

Our town presents quite a lively appearance to-day, the soldiers are out in full uniform, accompanied by the Iowa Hill and Dutch Flat brass bands; and present a most soldierly appearance. The Little York Guards are momentarily expected; they are in sight; and as soon as they get here we intend to bid defiance to the "mimions" of Jeff. Davis. Bully for the soldiers. The Little York Guards have arrived, and everybody is as happy as a baked clam.

TERRIBLE CAUSALTY.—FIVE MEN KILLED.
We take the following account of a horrible accident from the Gold Hill (N. T.) News, of the 5th instant:

Last evening a few minutes before six o'clock, a frightful accident occurred at the new reservoir in process of excavation. For the construction of the reservoir a large spot is being excavated and graded in the side of the hill near the Bullion works. Marshal Arnold had a force of twenty-seven men at work under the superintendence of officer Householder. They had breasted into the hill until the bank on the upper side was about fifteen feet high. Into this bank cuts had been made separating it into three sections. The ground had been found exceedingly hard and difficult to cave down, and the system pursued was to undermine it to an extent and then drive a steel bar into the surface above to the depth of several feet, attaching a rope to the bar, and by the united strength of several men prying off the section. Householder had two men employed at such a bar at the south section, and the men below had left that portion of the work. While doing so, the middle section, which had no connection with the south section, fell, burying eight of the workmen. The survivors immediately set to work vigorously to extricate their companions, and the alarm being given, a large force of other citizens were soon on the ground and at work. Thos. Ryan, John Robert, and Peter Ford were taken out dead. Michael Henneham and Nicholas Murphy were alive when taken out, but hopelessly crushed and died soon afterwards. James Gardner, P. Fitzgerald and Wm. Quinn were slightly injured, no bones broken. An inquest was held upon the bodies this morning by Coroner Tucker. Officer Householder, Drs. Hereford and Hall, Judge Robinson, Lawrence McGinn, Daniel Sheehan, Martin Mahon, and Patrick Kerwin were sworn as to the circumstances attending the disaster. The testimony is consistent and establishes very fully that the casualty resulted from striking an unusual and treacherous stratum of damp sandy soil, totally unexpected in that locality. None of the workmen, or those having supervision of the excavation had any apprehension of the bank falling. The jury found a verdict in accordance with the facts above stated, fully acquitting those in charge, or the workmen of any charge of carelessness.

ANOTHER GREENBACK OPERATION.

ED. ENQUIRER:—A loud-mouthed, hypocritical supporter of the Government; one who by ungrateful threats invites transactions in Greenbacks and then complains of the action, has been guilty of a little operation in Greenbacks which the public generally should know in order that he may sustain his reputation as a man who desires the welfare of the Government, and a man in whom "confidence" may be placed: A gentleman of this place desiring to pay his National Revenue Tax requested L. Arnstein to forward the same to the Collector, which he has time and time again refused to do. Arnstein, in the time remaining that he could pay the tax in greenbacks, the gentleman replied that he was aware of the fact but wished the gold sent, and left with the understanding that the gold would be sent. Now this stickler after gold allowed his friend's gold to "stick" to his fingers, and paid the tax in legal tender notes, thereby "appropriating" to himself the difference between Greenbacks and gold. Mark the man! L. ARNSTEIN. These facts can be substantiated by affidavit, if necessary.

LETTER FROM SAN FRANCISCO

SAN FRANCISCO, May 9th, 1864.

EDITOR ENQUIRER:—Through a misapprehension on the part of the writer, the letter designed for your last issue was not prepared in time to reach you; please accept the apology, we think a similar circumstance unlikely to occur again.

Business has been, and still continues, very dull, and the money market is unusually stringent; indeed the last steamer day was the tightest ever experienced, according to that universal authority—the oldest inhabitant. By the way, we have so many contestants for the dignity of that title, that it is impossible to say who or which is he, the army of would be's, however, may generally be found in the vicinity of groggy "old corners" or in "holes in the wall" where they take in suction like bricks, and solve political problems with a promptness and ingenuity truly amazing. We need hardly say that this ragged regiment of "superior intelligence," is divided into hostile sections, each having its own favorite haunts or habitat, where the American Flag or Democratic Press serves to sweeten by, and in once their creed, their patriotism, and their deologic. Both parties indulge in tangle-leg as often as the gods permit, and both parties are alike beneath contempt, although they doubtless do exert some influence upon political movements.

Since we wrote you last the daily Journal has ceased from its labors in behalf of honest Old Abe, although we cannot say that its name is at rest, very ardent creditors being busily occupied in delving with impunity and without remorse, amid the dry old bones, ventilating the blank apartments, once the palace of its soul. It is said that "straws show which way the wind blows" but what's the wind now? surely when such an irrepressible Union advocate gets the cold shoulder, and goes to the wall, we may ask if the term "loyal San Francisco" is not a misnomer? A new daily journal to be called the Tribune is expected to rise from its ashes. It will be devoted chiefly to local interests, at a bit per week, and will therefore run counter to the specialty of the Morning Call, and as its publishers and proprietors are all practical printers it will probably make a good fight for standing ground and elbow room. Social sensations, although actively in demand, have failed to meet the requirements of seekers, either in quantity or quality, and par consequence, local itemers have found the Jordan of the daily press a "hard road to travel, I believe." The arrest of General Chipman for venturing his opinions upon what the Administration, should, or should not do, has created a good deal of frothy declamation, and furnished the American Flag with an appropriate text for many spasmodic paragraphs. The old man is at present confined at Alcatraz, where he will have time for serious reflection, but he is an old man, who, as an American citizen has been accustomed to the right of free speech from his youth up, we apprehend he will find it a difficult task to keep pace with the political developments of the day. Civil liberty is not unlike the little joker of the thimble-rigger, "now you have it and now you haven't," now you see it and now you don't. It undergoes as many changes as the fabled chameleon, until even experts are unable to swear to the color of the reptile; some ardent partisan leaders are of course positive it is white, others are equally certain that it is black, although in the opinion of the writer, when Time, who sets all things even, at last produces the beast, it will be found of a mixed or nondescript hue.

We have had a great many distinguished articles lately. The Rev. Dr. Bellows the champion of Unitarianism, the Lightning Calculator in Arithmetic, and the "broth of a boy" from "Ould Oirlaud," who stands eight feet in altitude, and is reputed as wise and witty as any of the *Alta's* sages (?). Of course your readers are entitled to our impressions as to these celebrities, which we therefore furnish, and to begin at the beginning, Dr. Bellows has not produced a very favorable impression. He is nothing more than an ordinary thinker and speaker, such as may be found in many a sequestered parish, doing their work well enough as the times go, but all unknown to fame. We doubt much if his name will be known beyond his own generation, any more than your zealous clerical gent, who would destroy the temple, because peradventure there may be one seceder therein, who sacrifice of the fringe of the flock to clear, a second love's offering, to the altar of the *Most High*. Dr. Bellows will probably stamp the State, in behalf of the Sanitary Fund, and a vigorous prosecution of the war, by which such a fund becomes necessary, in which case the worthy burgers of Dutch Flat will have an opportunity of judging for themselves, and responding with the spontaneity, to his urgent appeals. The "Lightning Calculator" is indeed a marvel in his special domain of figures, a perfect prodigy, there is no sum "that he can't cipher out" nor will there be, until Salmon P. has a successor, and the issue of greenbacks and the national debt comes under consideration, when we guess even the Lightning Calculator will get a stunner, and like all other great things of time he will have to succumb and make way for a greater.

Of the *Oirish Giant* we have little to say, save that he must be seen to be appreciated, he is in fact beyond our reach, and out of our element. He stands upon a dignity as lofty and unapproachable as the great ice of the *Alta*, and should not be spoken to, or of, by such small fry as your correspondent, who only stands four feet six and don't know much. There is at present a gaintess in this city who pines in single blessedness. Now if "Gilbert" would contrive to bring about an introduction between the parties of course we don't mean the editor of the *Alta*, but the "Oirish boy" and this lone damsel, a conjunction of these brooding children, would create a world wide excitement, Gilbert would out Barnum Barnum, and secure a celebrity, reputable, and universal as "Hostetter's Stomach Bitters" and they are as familiar as household words, everywhere. We furnish the hint free gratis, it is worth a fortune to the man who executes it, we will take long odds that the "boy" proves himself equal to any such emergency, or he has no claim to the green and where have is as natural to the person as the many mouthed marbles are to the soil.

The Engineer of the Spring Valley Water Works who has been so lately discovered the cause of his trouble. It appears that the Bensley Water Co. had tapped the main of their rival with a two inch pipe, through which it is estimated they received about 150,000 gallons per month. The Bensley Co. claim that it was a mistake, but people will believe that it was stealing just for the fun of the thing, it does certainly look like stealing, but "a floc for the phrasal, and the wise do call."

A MAN in search of a child was asked by a pious old woman, who thrust his half-naked frame through the window of a dilapidated three-story wooden building:

"What a child you want?"

"About three years old?"

"Yes."

"Has he fair hair, blue eyes, red stockings and smoke-colored gaiters?"

"Yes."

"Had he a plain dress and a white straw hat on?"

"Yes! Yes! Is he up there with you?"

"Oh! no, sir, it's myself that wishes he was—but I send his mother, a while ago, a lookin' for the darlin'."

NEW THOUGHTS BY AN OLD MAID.—Men are like better matches—the silent ones are more likely to be depended on than those which go off with so loud a report that they extinguish their own light.

There is a time of life when we are content with sitting at the window to see other people pass; and this is about the earliest symptom of middle age. The window which is the most eligible for this purpose, is the old-fashioned bay window.

Matrimony resembles the moderator lamp.—There is always something the matter with it. How refreshing is tea, and how exhilarating is an evening party; yet for both a spoon is required, to prevent the sweets from remaining unadmired for want of a stir.

Existence, with its one success after so many disappointments, reminds us of the game of whist. It is only the last card that we deal that turns up a trump.

What a wonderful thing is a watch, and what a pity it is that we cannot dip some weak minds in it.

BREVITIES OF NAPOLEON.—Opinion makes men brave—nature forms them intrepid.

What is called the law of nature is made up simply of two things—self-interest and reason.

To be a great man requires only courage enough to support adversity.

Everything is easy, if you follow the current of opinion; a shallow bark neither wants canvas nor oars to glide down the stream.

Nothing is more imperious than weakness when it fancies itself unhelped by strength; some weak people, on the contrary, are sensible of their weakness, and are able to make a good use of it.

On a reverse of fortune we always respect those who have respected themselves in prosperity.

That would be a most singular book in which no falsehood could be detected.

HORRIBLE.—A child stopping with a family living near this city has been undergoing a series of tortures for some trivial offense, where it has been kept for some days without proper food to eat, with scant clothing, and no bedding to sleep upon. Besides being cruelly beaten, the child had an appearance to indicate that it had been scalded. An attempt was made to rescue the child from its impending doom, by humane individuals, which failed; whereupon petition was made for a writ of habeas corpus, which was granted, child brought away, and the brute of a father lodged in jail.—Portland Oregonian.

So long as a woman inspires love she is not old. But what is it to be old? It does not depend upon the fact that we have existed during a certain number of years which have been allotted to each of us. To be old is to have no longer a beauty or charm. If a woman preserves the attraction of youth until she reaches the age of one hundred she will be younger than the woman of twenty who has lost them.

Prices from \$60 Upwards
Over 50,000 in Use!

WE beg to assure the public that the well-
known reputation of these Machines for RE-
LIABILITY will be fully sustained, and in our rap-
idly increasing business the same care will be faith-
fully exercised in every department of our manu-
facture. Every Machine sold by us IS WARRANT-
ED IN EVERY RESPECT.

The public attention is respectfully requested to
the following

Card from the Grover & Baker S. M. Com-
pany.

The public, in their eagerness to supply themselves
with Sewing Machines making the GROVER & BAKER
stitch must not forget to purchase them of the par-
ties who alone are authorized to sell them. All ma-
chines coming from the spools and in which one
needle only penetrates the cloth, and having a feed
which allows the material to be turned at will are
infringements.

GROVER & BAKER, S. M. CO.
A Card from Elias Howe, Jr.

All persons are cautioned not to make, deal in, or
use, any Sewing Machines which sew front two
spools and make the stitch known as the Grover &
Baker stitch, unless the same are purchased from
the GROVER & BAKER SEWING COMPANY,
or their Agents, or Licensees, and stamped under my
patent of September 10, 14.

Said Company and their Licensees, alone, are leg-
ally authorized under their own patents, and my said
patent, during the extended term thereof, to make
and sell this kind of Sewing Machines, and all oth-
ers are pirates upon my said patent, and will be
dealt with accordingly wherever found.

ers, who prefer the "lock stitch," is called to our

AMERICAN EXCHANGE,
SANSOME STREET,
Opposite the American Theater,
San Francisco.

S. H. SEYMOUR, Proprietor.

THE UNDERSIGNED, LONG CONNECTED
with the establishment as Book-keeper, begs
leave respectfully to inform the old patrons of the
house, and the public generally, that he has leased
from Mr. Bailey Sargent,

THIS MAGNIFICENT ESTABLISHMENT,
which will in future be entirely under his manage-
ment and control, and where he will be pleased to
see his old friends and the traveling public. He
fatters himself that his experience in the business,
and his long acquaintance with the people of Cali-
fornia, will be a guarantee that no one will leave
his house dissatisfied, and he pledges himself to
spare no pains or expense in providing every means
for the comfort and satisfaction of his guests.

THE AMERICAN EXCHANGE is well known
to the people of California, that it is almost
unnecessary to say anything in praise of either of
the building or its location. The Proprietor will only
remark that it is inferior to no house in the State
in all the requirements of a FIRST CLASS HO-
TEL, being in a central location and easy of access
from all parts of the city. The ROOMS are large
and WELL VENTILATED, and are fitted with
Spring Mattresses. Water has been introduced into
all parts of the house.

BATH ROOMS on the premises for the conve-
nience of families.
Two Coaches are attached to the Hotel to convey
passengers here to and from the steamers.
